

THE AFFORDABLE

PORTABLE HOT TUBS YOU'LL LOVE.

Our California Range are rotationally moulded, a manufacturing process which uses less material and labour than a traditional acrylic hot tubs.

Using this method we are able to deliver a premium hot tub experience at a more affordable price point.

Our California Range are incredibly durable due to their manufacturing process which produces a very strong unibody (one-piece) hot tub shell, eliminating the need for an internal support frame.

ENERGY EFFICIENT HOT TUBS

FOR LOW MONTHLY OPERATING COSTS.

Engineered to give you maximum performance, your California Range will requiring less energy. Each spa is fully insulated for optimal heat retention. Combined with an insulated thermal cover, California Range will maintain their heat with minimal energy consumption.

Certified to the strict guidelines set forth by the California Energy Commission (CEC) who sets the bar for energy-efficient hot tubs, your California Range will give you peace of mind knowing your spa will keep operating costs low wherever you live.

HEAT + BUOYANCY + MASSAGE = HAPPINESS

STEP INTO HAPPINESS!
