INTRODUCING THERMALS SPAS

by SUPERIOR WELLNESS

Exclusive to us in the UK. Thermals Spas use some of the latest technology to create the next spa generation and offer an abundance of design features to choose from.

The range is well-balanced offering stylish moulds and a mixture of single and dual pump spas with an array of sizes including three swim spas. Built using a corrosion-free steel frame, Aristech acrylic, and Gecko equipment the Thermals Spas by Superior Wellness deliver fantastic hydrotherapy and great value for money – going beyond your expectations.

Colour Options

People often underestimate the importance of colour. Not only can it influence the way that people think and feel, but it can sway their reactions and change their actions as well.

That's why choosing the right colour for your hot tub shell is essential prior to installation. You want your spa to be as calming, relaxing, and aesthetically pleasing as possible.

Shell  Sterling Silver  Odyssey **Cabinet**  Grey

Above colours applicable to the Space and Gemstone ranges only.

R-10 Full Insulation Technology

R-10 full insulation technology has been very popular and mature in the hot tub industry. Its purpose is to reduce the running cost of hot tubs and to achieve energy-saving and environmental protection. Thermals Spas always focus on innovation and the breakthrough in the R-10 full insulation technology will decrease the running costs of hot tubs.

Certifications

Certified routines and reliable quality with quality one of our core brand values at Superior Wellness. Every single swim spa and hot tub has to go through our stringent quality assurance procedures. Our management, production, and inspection routines as well as our products and their components have been certified and evaluated to exceed numerous international standards.

Quality Components

Intro range

Enter the Thermals Spas world

Our new Intro range provides a more affordable option for those looking to invest in their first hot tub.

With two styles to choose from, both models are built with many of the same high-quality components as the Space range, such as Gecko Controls, but offers great value for money and the perfect introduction to hot tub ownership. They also all come with Bluetooth music, LED Lighting and water features.

Swim Spas range

Aquatic exercise in your garden

Thermals Spas swim spas are the ideal choice for anybody who wants more than a conventional hot tub.

Our Leisure range swim spas, available in three sizes, have the benefits of modern hot tubs with the unique advantages of an endless swimming pool. Full foam installation surrounding the shell - combined with the custom fit shell covers - forms an effective insulation barrier keeping the heat in and the cold out. They are ideal for anyone who wants to relax, enjoy a healthy lifestyle, and stay fit.

The range offers everything a family could need from a compact exercise swim spa, a large aquatic fitness area through to the ultimate dual temperature spa with hot tub end and exercise end.

Classico

177 x 90	38	4	1x 2HP + 3x 3HP	1x 1HP
